

Eureka's Rope and Rope

Step by Step Solution

(made by Ad van der Schagt)

Use this solution together with the original solution by Eureka

Step 00 Start
Arrange the rope as shown

Step 01
Change the position of the upper and lower rope

Step 02
Bring the disc through the groove from the left side

Step 03
Bring the ball to the top of the wooden bar

Step 04
Move the ring to the top of the wooden block and over the ball

Step 05
Move the ball downwards to the left side and move the ring, from the right to the left, through the groove

Step 06
Bring the ring, from right to left, over the ball and go back to the right

Step 07
Move the ring back through the groove, from the left to the right

Step 08
Bring the ring to the top of the wooden block

Step 09
Bring the ball to the top of the wooden bar.
Attention: the rope from the disc must be at the right side of the ball

Step 10
Move the ring downwards over the ball and along the vertical wooden block

Step 11
Bring the disc through the small noose.
Attention: the rope from the disc have to go in the same direction as the rope that is already in the noose

Step 12
Move the ring along the wooden block to the right side

Step 13
Let the ring leave the wooden block and move the ring over the noose

Step 14
Bring the ring through the noose from the right top to the left bottom

Step 15
Move the ring, from the right to the left, through the groove of the wooden block

Step 16
Move the ring over the ball from the right to the left and to the right again

Step 17
Move the ring, from the left to the right, through the groove of the wooden block

Step 18
Rearrange the rope as shown above

Step 19
Change the position of the upper and lower rope

Step 20
Move the ring along the rope, from the left to the right through the groove, through the noose and again through the groove from the right to the left

Step 21
Move the ring to the top of the wooden block

Step 22
Move the ring downwards along the vertical part of the wooden block

Step 24
Move the ring along the horizontal part of the wooden block and over the noose

Step 25
Rearrange the rope and see the free ring

Step 26
Finish

That was easy!

...or not?

Congratulations!
