Huzzle Cast Dot

Assembled

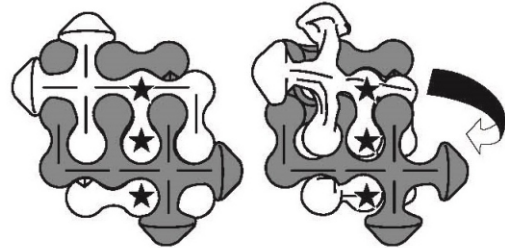

Disassembled

① This is the starting position. As the diagram shows, place the piece so that the surface that crosses is on the top.

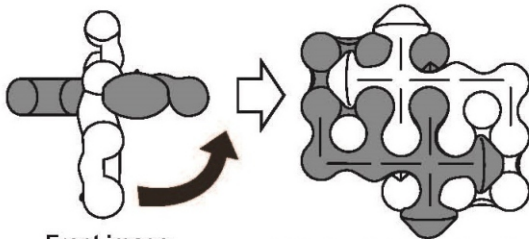

* In these instructions, Piece B will not be moved; only Piece A will be moved.

② Rotate Piece A 90 degrees sideways, with the locations indicated with the stars on Piece A as the axis, so that Piece B goes underneath it.

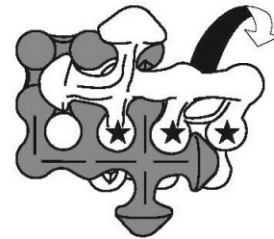

③ Pulling the rotated Piece A to the right, rotate it 90 degrees in the opposite direction from ②.

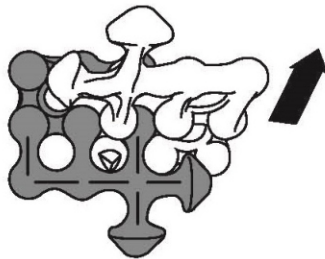

Front image

* At this point, Piece A is at the right of its initial starting position.

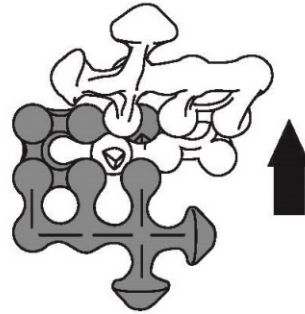

④ Rotate it vertically 90 degrees, taking the locations indicated with the stars on Piece A in the diagram as the axis.

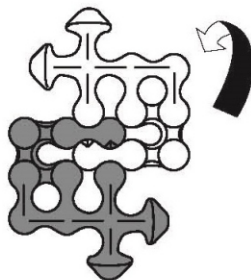

⑤ Slide Piece A upwards.

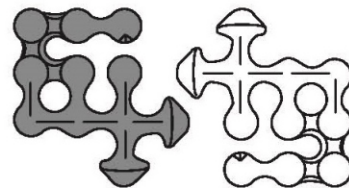

⑥ Slide Piece A backwards to the very end.

⑦ Twist Piece A 90 degrees.

⑧ Done!

Do the moves in the opposite direction to return to the original position.

* This answer is one example only.
